What was your knowledge and experience before you came to this class in creating videos with a digital camera and a computer?

i didn't really have any knowledge

What is your knowledge and experience NOW after being in this class in creating videos with a digital camera and a computer? What HAVE you learned? *

I know how to film with a camera and how to use a tripod

What could you have done better to learn about creating videos in this class during Quarter 3? *

I could've worked better as a group, when we made our interview

What could the school and your teacher do better to teach you and to help you learn about creating videos with a camera and a computer?

nothing, maybe more creative projects

What skills do you want to learn before we end this class in May?

I think I would keep doing what we are learning right now

Anything you'd like to comment on about this class, this school, etc..This is your chance to air any grumbles or to give any praises *

no, everything is cool how it is

What was your knowledge and experience before you came to this class in creating videos with a digital camera and a computer?

I was pretty comfortable with a camera and a computer but not much video experience.

What is your knowledge and experience NOW after being in this class in creating videos with a digital camera and a computer? What HAVE you learned? *

Now I know how to create video using green screen and other video magic.

What could you have done better to learn about creating videos in this class during Quarter 3? *

We could have done more projects because we spent too long on many projects.

What could the school and your teacher do better to teach you and to help you learn about creating videos with a camera and a computer?

Speed up the process

What skills do you want to learn before we end this class in May?

anything to do with more photoshop, not like cards and things but more logos and editing

Anything you'd like to comment on about this class, this school, etc..This is your chance to air any grumbles or to give any praises *

Id like to have only the people who want to be in this class to be in this class and not people who take it as a free period because they waste space.

Sarah Micor P. 4

What is your Weebly website address?

<http://sarahmicor.weebly.com/notes-2016>

What was your knowledge and experience before you came to this class in creating videos with a digital camera and a computer?

I knew how to add music to videos and how to adjust volumes and use transitions.

What is your knowledge and experience NOW after being in this class in creating videos with a digital camera and a computer? What HAVE you learned? *

After the class, I am now able to cleanly cut videos and fix camera lighting. I also learned how to position cameras to compliment the point of interest.

What could you have done better to learn about creating videos in this class during Quarter 3? *

I could've done the whole lesson from the beginning rather than randomly jumping in for one of the projects. I was doing digital art for the beginning of the month.

What could the school and your teacher do better to teach you and to help you learn about creating videos with a camera and a computer?

The school could provide better equipment and maybe provide more informational people to ask.

What skills do you want to learn before we end this class in May?

I want to create cinematic videos and learn to entertain the eyes of a person.

Anything you'd like to comment on about this class, this school, etc..This is your chance to air any grumbles or to give any praises *

I like making videos.

Kimberley Bischoff Period 5

What is your Weebly website address?

<http://xxxscarlettxxx.weebly.com>

What was your knowledge and experience before you came to this class in creating videos with a digital camera and a computer?

I had very little knowledge about creating videos with a digital camera and computer. The most I knew was that people used extra lighting, a tripod, a cannon camera, a mic to increase sound, and some kind of editing program on a computer. I didn't know how to set any of this stuff or edit a video and make it better up until I came to this class.

What is your knowledge and experience NOW after being in this class in creating videos with a digital camera and a computer? What HAVE you learned? *

My knowledge now of creating good quality videos has increased. I now know how to edit a video and make it better, I know how to edit a green screen in a video and add pictures to the background, I have learned how add sound effects to a video such as music. I've learned

how to adjust sound volume on videos, set up a digital camera on a tripod, shoot good quality video, and get good lighting on the subject.

What could you have done better to learn about creating videos in this class during Quarter 3? *

I could have participated more in the group activities when they were set up.

What could the school and your teacher do better to teach you and to help you learn about creating videos with a camera and a computer?

The teacher could have come up with more interesting video projects like the door scene.

What skills do you want to learn before we end this class in May?

Uh...I think I've learned all I wanted to in this class. I can't really think of anything else that would interest me.

Anything you'd like to comment on about this class, this school, etc..This is your chance to air any grumbles or to give any praises *

I don't have any further comments.
